

ENVIRONMENTAL POLICY

Sievin Jalkine Oy takes the environmental aspects of all its activities into account, ensuring strict conformance with legislative requirements and other obligations pertaining to the environment.

Sievin Jalkine Oy's environmental policy aims at:

- ✓ achieving a high level of customer satisfaction
- ✓ preserving a clean and healthy environment
- ✓ enhancing business competitiveness
 - by monitoring and optimizing the use of raw materials, energy and water
 - by minimizing emissions and waste
 - by promoting the use of renewable natural resources and the recycling of material whenever economically feasible.

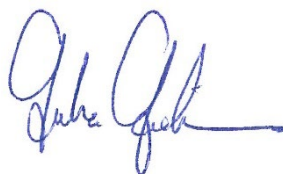

Sievin Jalkine Oy undertakes to establish an environmental management system in compliance with the ISO 14001 standard and to update it continuously. The goal is consistent enhancement of the level of environmental protection.

Top management is committed to following an environmental policy that responds to the challenges of today and to allotting resources for its implementation and monitoring.

All employees receive training to increase their awareness of the company's responsibility for preserving a clean and healthy environment.

Sievin Jalkine Oy's environmental policy is communicated to all constituent groups, and information about it is made available to the public.
