

QUALITY POLICY

Founded in 1951, Sievin Jalkine Oy is now the largest manufacturer of safety footwear in northern Europe. Sievi aims to satisfy the needs and expectations of customers for professional and safety footwear better than its competitors. All corporate decisions must benefit Sievi's customers.

To this end it has been decided that:

- ✓ Safety footwear shall be manufactured to conform with the harmonized European standard EN ISO 202345/EN 345 and occupational footwear with standard EN ISO 20347/EN 347.
- ✓ The company's quality system shall meet the requirements of ISO 9001.
- ✓ Every effort shall be made to recognize and satisfy customer needs at all times.
- ✓ Company development shall be ensured through staff training and the provision of in-house information.

The quality manual covers all aspects of the ISO 9001 quality system. We moreover confirm that corporate management and all employees are aware of the elements in the manual that refer to them personally and their spheres of responsibility.

The quality manual sets out the standard procedures and pertinent quality management measures developed by Sievin Jalkine Oy with the specific aim of preventing errors from arising in products, operations or services.

The quality system aims at eliminating any operational deviations.
