BOA® lace length

85 cm

A breathable upper and waterproof split leather and nubuck, as well as a leg section crafted from water-repellent fabric and the new BOA® M4 Fit System. The lining combines fleece and the breathable GORE-TEX Sportive lining, whilst the soles feature the shock-absorbing and strain preventing Dual Comfort insole, to reduce the impact of knocks, both in the heel section and under the ball of the foot. The reflective tab at the back increases safety.
